**Bald Eagle Watershed Association  
P. O. Box 42  
Milesburg, PA 16853**

### Vision Statement

The Bald Eagle Watershed can be restored to the "original quality of life" by undoing harmful effects of factors such as chemicals, leachate, siltation and partnering with community groups, industries, and agencies to help alleviate bank erosion and flooding. The entire Watershed can be "cleaned up" so that an informed, knowledgeable public can enjoy a multi-variable land use and activities while preserving, monitoring and protecting natural reproduction. This should include a habitat for a stronghold of fish, wild birds, mammals, and diversified plant life.

### Mission Statement

The mission of the Bald Eagle Watershed Association, (BEWA,) is to serve the residents of the Bald Eagle Watershed by reducing flooding and improving storm water management through stream restoration, maintenance and environmental education.
